## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1, 3-4, 6-12, 14-16 and 18-22 are allowed.

The following is an examiner's statement of reasons for allowance:

As detailed in previous Office Actions, Hendricks (US Pat No 5,798,785) teaches the use of weighting functions in a recommendation system, where time information determines a weight. The weight is base on hen the real-time event is to begin and end relative to the user's current time. Hendricks does not teach or fairly suggest a same or different penalty per unit of time for an accumulated time a user misses a real-time event.

It is well known in the art to reduce the priority of a recommended real-time event if the user is made to wait; however, the prior art does not teach or fairly suggest a same or different penalty per unit of time for an accumulated time a user misses a real-time event.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2614
